

**REMARKS**

In the last reply filed on November 2, 2008, applicants deleted 2-(4'-chlorophenyl)-4-(4'-chlorophenyl)-4-oxobutanoic acid from the claims because it did not contain a thiol group.

After reviewing the application, it became apparent that there was an error in the naming of the above identified compound. This compound is identified as compound Ih-27 in the application on page 29. The structure of this compound is provided in the table on page 45 and the structure clearly demonstrates/illustrates that this compound has a thiol group, and thus, was named incorrectly. The correct name should have been 2-(4'-chlorophenylthio)-4-(4'-chlorophenyl)-4-oxobutanoic acid.

No new issues are raised by the entry of the above amendments.

At this time applicants respectfully request that this compound be added back into the claims and the correction in the naming of this compound be made in the specification.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/Csaba Henter/
